HEALTH SAVINGS ACCOUNT

What is an HSA?

Health Savings Accounts (HSA) are a tax-advantaged medical savings account available to those who enroll in the Consumer Driven Health Plan (CDHP). The funds you invest are not subject to most taxes. The growth of the invested amount is not taxed and when the funds are distributed, no tax penalties are incurred when applied to qualifying expenses. The funds you contribute to your HSA are yours to keep and can be used not only for medical expenses, but for retirement expenses as well.

Great Benefits For You

Convenience - Paying for expenses from your HSA is as easy as using a debit card.

Choice - Pay for qualified expenses from your HSA or save your HSA money and pay out-of-pocket.

Control - You decide how the money is spent and you have the freedom to keep it if you change jobs or retire.

Triple-Tax Savings

Tax-Free Deposits - Even if you don't itemize deductions, you don't pay federal income tax on contributions.

Tax-Free Savings - You keep any money you don't spend and it grows tax-free. No use-it-or-lose-it.

Tax-Free Withdrawals - There's never tax on withdrawals to pay for qualified expenses.

FLEXIBLE SPENDING ACCOUNT

What is an FSA?

Flexible Spending Accounts (FSA) provide you with an important tax advantage that can help you pay health care expenses on a pretax basis. By anticipating your family's health care and dependent care costs, you can actually lower your taxable income and that means you get to keep more of what you earn.

There are two types of FSA's that allow you to make deductions to pay for expenses:

HEALTH CARE FSA/ Limited Purpose FSA

Contributions

You may contribute up to \$3,400 per year as a before-tax contribution to your Health Care FSA.

Eligible Dependents

In general, an eligible dependent under the Health Care FSA is anyone you list as a dependent on your federal income tax return. This includes your immediate family members, a close relative or other person whose primary residence is your home and for whom you provide over 50% support.

DEPENDENT CARE FSA

Contributions

In the Dependent Care FSA, you may contribute up to \$7,500 per year. The \$7,500 annual maximum applies to all contributions made by you and your spouse to a dependent care account. If you are married and filing separately for federal income tax purposes, you may elect to contribute up to \$3,750 per year.

Eligible Dependents

You can be reimbursed for day care expenses you have in a plan year, if the expenses are necessary to allow you and your spouse—if you're married—to work. These services may be provided inside or outside your home by babysitters, companions or eligible day care centers. Services may not, however, be provided by someone you claim as a dependent on your tax return.

IMPORTANT REMINDER: Limited purpose FSA funds are for dental and vision expenses when enrolled in a HDHP. Health Care FSA funds are for all eligible medical expenses, but you cannot be enrolled in a HDHP.

PAYING YOUR FSA EXPENSES

There are two ways to pay for eligible expenses:

- **FSA Claim Form** – You pay your health care providers directly and then file a claim for reimbursement. Simply file a claim online or through the WEX mobile app. Claims payment can be made via direct deposit or paper checks (note a fee will apply for paper checks)
- **Debit Card** – You can use this card to pay for eligible health care expenses at any health care provider or approved merchant. With the Debit Card, participants have instant access to the money in their FSA, which is automatically drawn from their account as purchases are made.

DENTAL

With dental insurance, routine preventive care can lead to better overall health. And you'll be able to save money if any extensive dental work is needed.

If you became hospitalized, could you manage all of these expenses from your savings?

- Coverage is available to you, your spouse & your dependent children
- Coverage is portable (take it with you if you change jobs)
- No pre-existing condition limitation

DEFINITIONS

Coinsurance After you meet the deductible amount, you and the plan share the cost of covered expenses. Coinsurance is always a percentage totaling 100%. For example, if your plan pays 70% coinsurance, you pay the remaining coinsurance share, 30% of the cost.

Copayment or Copay A form of medical cost-sharing whereby a member pays at time of service (or purchase for prescription drugs) a fixed dollar amount, regardless of whether you have met your deductible for the year.

Deductible The fixed amount of cost-sharing you are responsible for during the benefit period before the plan will pay. The deductible typically does not apply to preventive care and certain other services.

Evidence of Insurability (EOI) / Statement of Health A medical questionnaire used to determine whether an applicant will be approved or declined for coverage. This may be required for certain types of insurance coverage.

Explanation of Benefits (EOB) The statement made available to a member by their carrier after services have been received and the claim has been processed, which lists the services received, amount paid by the plan, and the amount to be paid by the member.

Flexible Spending Accounts Health or Dependent Care (HCFSA or DCFSA): An account you put money into that you use to pay for certain out-of-pocket health or childcare costs with pre-tax dollars. This means you'll save an amount equal to the taxes you would have paid on the money you set aside. Funds deposited into a health FSA will be forfeited if you do not use them by the IRS deadline.

Formulary A list of prescription drugs covered by the plan that will be used to determine the coverage for the drug based on the tier the drug is listed.

Generic Drugs Medications that have the same active ingredients, dosage, and strength as their brand-name counterparts. Generic drugs generally have the same efficacy as their brand name counterparts at a much lower cost for you and your employer.

Guaranteed Issue When an insurance policy is offered to any eligible applicant without regard to the health status of the individual that applies. Typically, no health questionnaires (EOI) or exams are required.

In-network Doctors, clinics, hospitals and other providers with whom the plan has an agreement to care for its members. Plans cover a greater share of the cost for in-network providers than for providers who are out-of-network, and the member pays a lower amount for those services.

Non-Preferred Brands These medications generally have generic alternative and/or one or more preferred brand options within the same drug class which causes these drugs to cost more. You and your employers usually pay more for non-preferred brand medications. Also known as non-formulary brands.

Out-of-Network A physician, healthcare professional, facility or pharmacy that doesn't participate in the plan's network and doesn't provide services at a discounted rate. Using an out-of-network healthcare professional or facility will cost you more.

DEFINITIONS

Out-of-Pocket Maximum The maximum dollar amount a member is required to pay out of pocket for allowable covered expenses under a plan during a benefit period before the plan will pay 100% of the allowed amount. This limit never includes your premium, balance-billed charges or services your plan doesn't cover. Some plans don't count all of your co-payments, deductibles, co-insurance payments, out-of-network payments or other expenses toward this limit.

Preferred Drug A list of prescription medicines that are preferred based on an evaluation of effectiveness and cost. Another name for this list is a "formulary" or "formulary brand." The plan may charge more for non-preferred drugs or for brand name drugs that have generic versions. Drugs not on the preferred drug list may not be covered.

Payroll Deduction The amount you pay out of your paycheck in order to be enrolled in the medical, dental and/or vision insurance plans and other offered benefits.

Prior Authorization/Pre-Service Notification The decision by the plan that a service, treatment plan, prescription drug, medical equipment, or other services defined in the certificate of coverage and/or Summary Plan Description (SPD), is medically necessary. The plan may require preauthorization for certain services before receiving them, in order for the service to be covered.

Provider A physician (medical, dental or vision), healthcare professional or health care facility licensed, certified or accredited as required by state law recognized for payment by the plan.

Qualifying Event An occurrence defined by IRS Rules such as marriage/divorce, death, termination of employment, childbirth/ adoption, involuntary loss of coverage, etc. which triggers an employee's ability to make changes to their benefit elections at the time the qualifying event occurs outside of open enrollment.

2026 OPEN ENROLLMENT & PLAN PARTICIPANT NOTICES

Notice Regarding Wellness Program

If a Constituent Benefit Program listed is a voluntary wellness program available to all employees, it is intended to be administered according to federal rules permitting employer-sponsored wellness programs that seek to improve employee health or prevent disease, including the Americans with Disabilities Act of 1990, the Genetic Information Nondiscrimination Act of 2008, and the Health Insurance Portability and Accountability Act, as applicable, among others.

If you choose to participate in the wellness program, depending upon that program, it may include a voluntary health risk assessment that asks a series of questions about your health-related activities and behaviors and whether you have or had certain medical conditions (e.g., cancer, diabetes, or heart disease). You may also be asked to complete a biometric screening, which may include blood tests or other diagnostic tests. Please note that this is voluntary, and you are not required to participate in these evaluations or examinations.

In certain wellness programs, employees who choose to participate in the wellness program will receive an incentive that is disclosed to you in the open enrollment information for the Constituent Benefit Program. Although you are not required to complete the assessments or participate in the biometric screening, only employees who do so will receive the incentive. Additional incentives up to the maximums permitted by law, may be available for employees who participate in certain health-related activities or those who achieve certain health outcomes. If so, these will be described in your program materials or otherwise communicated to you.

If you are unable to participate in any of the health-related activities or achieve any of the health outcomes required to earn an incentive, you may be entitled to reasonable accommodation or an alternative standard. You may request a reasonable accommodation or an alternative standard by contacting the Plan Administrator listed in your Summary Plan Description. The information from any assessment and any results from your examinations or screenings will be used to provide you with information to help you understand your current health and potential risks and may also be used to offer you services through the wellness program. You also are encouraged to share your results or concerns with your own doctor.

Consistent with the disclosures in this Notice regarding the protection of your health and personally identifiable health information, any information gathered in the Constituent Benefit Program that is a wellness program, will be confidential. The wellness program may use aggregate information it collects to design a program based on identified health risks in the workplace, but it will never disclose any of your personal information either publicly or to the employer, except as necessary to respond to a request from you for a reasonable accommodation, or as expressly permitted by law. Medical information that personally identifies you that is provided in connection with the wellness program will not be provided to your supervisors or managers and may never be used to make decisions regarding your employment.

Also, your health information will not be sold, exchanged, transferred, or otherwise disclosed (except as permitted or required by law) to carry out specific activities related to the wellness program, and you will not be asked or required to waive the confidentiality of your health information as a condition of participating in the wellness program or receiving any incentive. Anyone who receives your information for purposes of providing you services as part of the wellness program will abide by the same confidentiality requirements. The only individual(s) who will receive your personally identifiable health information is a wellness program nurse, or physician or other health coach staff for purposes of the wellness program. You may inquire about who specifically has access to your information in this regard.

In addition, all medical information obtained through the wellness program will be maintained separate from your personnel records, information stored electronically will be encrypted, and no information you provide as part of the wellness program will be used in making any employment decision. Precautions deemed appropriate will be taken to avoid any data breach, and in the event a data breach occurs involving information you provide in connection with the wellness program, we will notify you immediately. Finally, you may not be discriminated against in employment because of the medical information you provide as part of participating in the wellness program, nor may you be subjected to retaliation if you choose not to participate. Any questions should be directed to the Plan Administrator as listed in your Summary Plan Document.

Anthem Blue Cross Blue Shield

ARE YOU, OR A FAMILY MEMBER, MEDICARE ELIGIBLE (OR ABOUT TO BECOME MEDICARE ELIGIBLE)? IF SO, PLEASE READ AND KEEP FOR YOUR RECORDS!

Notice of Creditable Coverage

Your prescription drug coverage provided under Arhaus Furniture Health and Welfare Plan is expected to pay out, on average, the same or more than what the standard Medicare prescription drug coverage will pay. This is known as “creditable coverage”.

Why This is Important

This information is to help you decide whether or not you want to join a Medicare drug plan. It is important for those eligible for both Medicare and a group health plan to look ahead and weigh the costs, benefits, and participation terms of the various options on a regular, if not annual, basis. Based on individual facts and circumstances some choose to elect Medicare only, some choose to elect coverage under the group health plan only, while some choose to enroll in both coverages. When both are elected, benefits coordinate according to the Medicare Secondary Payer Rules. That is, one plan or the other would *reduce payment* in order to prevent you from being reimbursed the full amount from both sources. Your age, the reason for your Medicare eligibility and other factors determine which plan is primary (pays first, generally without reductions) versus secondary (pays second, generally with reductions).

There are two important things you need to know about your current coverage and Medicare’s prescription drug coverage:

1. Medicare prescription drug coverage became available in 2006 to everyone with Medicare. You can get this coverage if you join a Medicare Prescription Drug Plan or join a Medicare Advantage Plan (like an HMO or PPO) that offers prescription drug coverage. All Medicare drug plans provide at least a standard level of coverage set by Medicare. Some plans may also offer more coverage for a higher monthly premium.
2. Arhaus Furniture has determined that the prescription drug coverage offered by the Anthem Blue Cross Blue Shield Plan is, on average for all plan participants, expected to pay out as much as standard Medicare prescription drug coverage pays and is therefore considered Creditable Coverage. Because your existing coverage is Creditable Coverage, you can keep this coverage and not pay a higher premium (a penalty) if you later decide to join a Medicare drug plan.

When May You Join A Medicare Drug Plan?

Eligible individuals may join a Medicare drug plan when you first become eligible for Medicare and each year from October 15th through December 7th. However, if you lose your current creditable coverage, through no fault of your own, you will also be eligible for a two (2) month Special Enrollment Period (SEP) to join a Medicare Drug plan.

What Happens To Your Current Coverage If You Decide to Join A Medicare Drug Plan?

If you decide to join a Medicare drug plan, your current Arhaus Furniture coverage may or may not be affected as well as dependent coverage. Additional guidance is available at <https://www.cms.gov/medicare/prescription-drug-coverage/creditablecoverage?redirect=/creditablecoverage/> which outlines the prescription drug plan provisions/options that Medicare eligible individuals may have available to them when they become eligible for Medicare Part D.

When Will You Pay A Higher Premium (Penalty) To Join A Medicare Drug Plan?

You should also know that if you drop or lose your current coverage with Arhaus Furniture and don't join a Medicare drug plan within 63 continuous days after your current coverage ends, you may pay a higher premium (a penalty) to join a Medicare drug plan later. If you go 63 continuous days or longer without creditable prescription drug coverage, your monthly premium may go up by at least 1% of the Medicare base beneficiary premium per month for every month that you did not have that coverage. For example, if you go nineteen months without creditable coverage, your premium may consistently be at least 19% higher than the Medicare base beneficiary premium. You may have to pay this higher premium (a penalty) as long as you have Medicare prescription drug coverage. In addition, you may have to wait until the following October to join.

HIPAA Notice of Privacy Practices

You are receiving this Privacy Notice because you are eligible to participate in an employer sponsored group health plans. The Health Plans are committed to protecting the confidentiality of any health information collected about an individual. This Notice describes how the Health Plan may use and disclose, “protected health information” (PHI). For information to be considered “PHI”, it must meet three conditions:

Information is created or received by a health care provider, health plan, employer, or health care clearinghouse; Information relates past, present, or future physical or mental health condition of an individual; the provision of health care to an individual; or the past, present, or future payment for the provision of health care to an individual; and the information either identifies the individual or provides a reasonable basis for believing that it can be used to identify the individual.

The Health Plan is required by the Health Insurance Portability and Accountability Act (HIPAA) to provide this Notice to an individual. Additionally, the Health Plan is required by law to:

Maintain the privacy of an individual’s “protected health information” (PHI) and provide you with the Privacy Notice of its legal duties and privacy practices with respect to an individual’s PHI and follow the terms of its Privacy Notice that is currently in effect.

Employees of the plan sponsor who administer and manage this Health Plan may use PHI only for appropriate plan purposes (such as for payment or health care operations), but not for purposes of other benefits not provided by this plan, and not for employment-related purposes of the plan sponsor. These individuals must comply with the same requirements that apply to the Health Plan to protect the confidentiality of PHI.

Uses and Disclosures of Protected Health Information (PHI)

The following categories describe the ways that the Health Plan may use and disclose protected health information. For each category of uses and disclosures, examples will be provided. Not every use or disclosure in a category will be listed. However, all the ways the Health Plan is permitted to use and disclose information will fall within one of these categories.

Treatment Purposes. The Health Plan may disclose PHI to a health care provider for the health care provider’s treatment purposes. For example, if an individual’s Primary Care Physician (PCP) or treating medical provider refers the individual to a specialist for treatment, the Health Plan can disclose the individual’s PHI to the specialist to whom they have been referred so (s)he can become familiar with the individual’s medical condition, prior diagnoses and treatment, and prognosis.

Payment Purposes. The Health Plan may use or disclose health information for payment purposes; such as, determining eligibility for plan benefits, obtaining premiums, facilitating payment for the treatment and services an individual receives from health care providers, determining plan responsibility for benefit payments, and coordinating benefits with other benefit plans. Examples of payment functions may include reviewing the medical necessity of health care services, determining whether a particular treatment is experimental or investigational, or determining whether a specific treatment is covered under the plan

Health Care Operations. The Health Plan may use PHI for its own health care operations and may disclose PHI to carry out necessary insurance related activities. Some examples of Health Care Operations may include:

underwriting, premium rating and other activities related to plan coverage; conducting quality assessment and improvement activities; placing contracts; conducting or arranging for medical review, legal services, audit services, and fraud and abuse detection programs; and business planning, management and general administration of the Health Plan.

To a Business Associate of the Health Plan. The Health Plan may disclose PHI to a Business Associate (BA) of the Health Plan, provided a valid Business Associate Agreement is in place between the Business Associate and the Health Plan. A Business Associate is an entity that performs a function on behalf of the Health Plan and that uses PHI in doing so or provides services to the Health Plan such as legal, actuarial, accounting, consulting, or administrative services. Examples of Business Associates include the Health Plan's Third-Party Administrators (TPAs), Actuary, and Broker.

To the Health Plan Sponsor. The Health Plan may disclose PHI to the Plan Sponsor as long as the sponsor has amended its plan documents, provided a certification to the Health Plan, established certain safeguards and firewalls to limit the classes of employees who will have access to PHI, and to limit the use of PHI to plan purposes and not for non-permissible purposes, as required by the Privacy Rule. Any disclosures to the plan sponsor must be for purposes of administering the Health Plan. Some examples may include: disclosure for claims appeals to the Plan's Benefits Committee, for case management purposes, or to perform plan administration functions.

The Health Plan may also disclose enrollment/disenrollment information to the plan sponsor, for enrollment or disenrollment purposes only, and may disclose "Summary Health information" (as defined under the HIPAA medical privacy regulations) to the plan sponsor for the purpose of obtaining premium bids or modifying or terminating the plan.

Required by Law or Requested as Part of a Regulatory or Legal Proceeding. The Health Plan may use and disclose PHI as required by law or when requested as part of a regulatory or legal proceeding. For example, the Health Plan may disclose medical information when required by a court order in a litigation proceeding, or pursuant to a subpoena, or as necessary to comply with Workers' Compensation laws.

There are limits on the Plan's use and disclosure of PHI in regard to disclosures related to Reproductive Health Care. In regard to such requests, if a request may impact Reproductive Health Care, as defined in the Policy and the HIPAA Regulations, the Plan must obtain an Attestation to verify that the requested use or disclosure is not for a Prohibited Purpose, as defined by Regulations. Prohibited Purposes in this regard include the following; 1) to conduct criminal, civil or administrative investigation into any person for the mere fact of seeking, obtaining, providing or facilitating lawful reproductive healthcare; 2) to impose criminal, civil, or administrative liability on any person for the mere act of seeking, obtaining, provoking, or facilitating lawful reproductive health care; and/or 3) to identify any person for purposes of items (1) and (2). Certain types of requests automatically require Attestation.

In Addition, when substance use disorder treatment related to PHI is requested, there are limits on permitted disclosures related to civil, criminal, administrative, or legislative proceedings against the individual, unless based on written consent, or a court order after notice an opportunity to be had is provided to the individual or the holder of the record. A court order authorizing use or disclosure must be accompanied by a subpoena or other legal requirement compelling disclosure before PHI can be used or disclosed.

Public Health Activities or to Avert a Serious Threat to Health or Safety. The Health Plan may disclose PHI to public health authorities for purposes related to: preventing or controlling disease, injury or disability; reporting child abuse or neglect; reporting domestic violence; reporting to the Food and Drug Administration problems with products and reactions to medications; and reporting disease or infection exposure.

Law Enforcement or Specific Government Functions. The Health Plan may disclose PHI to law enforcement personnel for purposes such as identifying or locating a suspect, fugitive, material witness or missing person; complying with a court order or subpoena; and other law enforcement purposes.

Other uses and disclosures will be made only with an individual's written authorization or that of their legal representative, and the individual may revoke such authorization as provided by section 164.508(b) (5) of the Privacy Rule. Any disclosures that were made when the individual's Authorization was in effect will not be retracted.

An Individual's Rights Regarding PHI

An individual has the following rights with respect to their PHI:

Right to Inspect and Copy PHI. An individual has the right to inspect and copy health information about them that may be used to make decisions about plan benefits. If they request a copy of the information, a reasonable fee to cover expenses associated with their request may be charged.

Right to Request Restrictions. An individual has the right to request restrictions on certain uses and disclosures of their PHI (although the Health Plan is not required to agree to a requested restriction).

Right to Receive Confidential Communications of PHI. An individual has the right to receive their PHI through a reasonable alternative means or at an alternative location if they believe the Health Plan's usual method of communicating PHI may endanger them.

Right to Request an Amendment. An individual has the right to request the Health Plan to amend their health information that they believe is incorrect or incomplete. The Health Plan is not required to change the PHI but is required to provide the individual with a response in either case.

Right to Accounting of Disclosures. An individual has the right to receive a list or "accounting of disclosures" of their health information made by the Health Plan, except the disclosures made by the Health Plan for treatment, payment, or health care operations, national security, law enforcement or to corrections personnel, pursuant to the individual's Authorization, or to the individual. An individual's request must specify a time period of up to six years and may not include dates prior to May 1, 2010 (effective date of this regulation). The Health Plan will provide one accounting of disclosures free of charge once every 12-month period.

Breach Notification. An individual has the right to receive notice of a breach of your unsecured medical information. Notification may be delayed if so, required by a law enforcement official. If you are deceased and there is a breach of your medical information, the notice will be provided to your next of kin or personal representatives if the plan knows the identity and address of such individual(s).

Genetic Information If the covered entity under the Plan engages in underwriting an individual's genetic information will not be used for underwriting except for long term care plans.

Right to Paper Copy. An individual has a right to receive a paper copy of this Notice of Privacy Practices at any time.

The Health Plan's Responsibilities Regarding an Individual's PHI

The Health Plan is a "covered entity" (CE) and has responsibilities under HIPAA regarding the use and disclosure of PHI. The Health Plan has a legal obligation to maintain the privacy of PHI and to provide individuals with notice of its legal duties and privacy practices with respect to PHI. The Health Plan is required to abide by the terms of the current Notice of Privacy Practices (the "Notice"). The Health Plan reserves the right to change the terms of this Notice at any time and to make the revised Notice provisions effective for all PHI the Health Plan maintains, even PHI obtained prior to the effective date of the revisions. If the Health Plan revises the Notice, the Health Plan will promptly distribute a revised Notice to all actively enrolled participants whenever a material change has been made. Until such time, the Health Plan is required by law to comply with the current version of this Notice.

The complaint will be investigated, and a written response will be provided to the individual within 30 days from receipt of the complaint. A written summary of the complaint and any correction action taken will be filed with the Privacy Officer. The Health Plan will not retaliate against the individual in any way for filing a complaint.

If an individual would like their complaint reviewed by an outside agency, they may contact the Department of Health and Human Services at the following address:

**Department of Health and Human Services
The Hubert H. Humphrey Building
200 Independence Avenue, S.W.
Washington, D.C. 20210**

HIPAA Plan Special Enrollment Notice

If you are declining your enrollment under the Plan, or declining coverage for your spouse or one of your dependents, because of other health insurance or group health plan coverage, you may be able to enroll yourself and your dependents in the Plan if you or your dependents lose eligibility for that other coverage, or if the employer stops contributing toward such other coverage. However, you must request enrollment within 30 days after you or your dependents' other coverage ends, or after the period for which the employer ceased contributing toward such other coverage if such payment applied to your circumstances.

In addition, if you have a new dependent, as a result of your marriage, birth, adoption, or placement for adoption, you may be able to enroll yourself and your dependents. However, you must request enrollment within 30 days after the marriage, birth, adoption, or placement for adoption.

To request special enrollment or obtain more information, please contact the Plan Administrator listed in the Summary Plan Description or contact the Human Resources department staff for further information.

Genetics Information Notice

The Genetic Information Nondiscrimination Act of 2008 (GINA) prohibits employers and other entities covered by GINA Title II from requesting or requiring genetic information of an individual or family member of the individual, except as specifically allowed by this law. To comply with this law, we are asking that you not provide any genetic information when responding to this request for medical information.

"Genetic information," as defined by GINA, includes an individual's family medical history, the results of an individual's or family member's genetic tests, the fact that an individual or an individual's family member sought or received genetic services, and genetic information of a fetus carried by an individual or an individual's family member or an embryo lawfully held by an individual or family member receiving assistive reproductive services.

Mental Health/Substance Use Disorder Parity

Effective for Plan Years on and after July 1, 2010, benefits under Plans that provide Mental Health Benefits are subject to final regulations supporting the Mental Health Parity and Addiction Equity Act of 2008 (MHPAEA). Benefits for mental health conditions and substance use disorder conditions that are Covered Health Services under the Policy must be treated in the same manner and provided at the same level as Covered Health Services for the treatment of other Sickness or Injury. Benefits for Mental Health Services and Substance Use Disorder Services are not subject to any annual maximum benefit limit (including any day, visit or dollar limit).

MHPAEA requires that the financial requirements for coinsurance and copayments for mental health and substance use disorder conditions must be no more restrictive than those coinsurance and copayment requirements for substantially all medical/surgical benefits. MHPAEA requires specific testing to be applied to classifications of benefits to determine the impact of these financial requirements on mental health and substance use disorder benefits. Based upon the results of that testing, it is possible that coinsurance or copayments that apply to mental health conditions and substance use disorder conditions in your benefit plan may be reduced.

Newborns and New Mothers Care Disclosure

This Plan generally does not, consistent with applicable Federal law, restrict benefits for any hospital length of stay in connection with childbirth for the mother or newborn child to less than 48 hours following a vaginal delivery, or less than 96 hours following a cesarean section. However, consistent with that same Federal law, this Plan generally does not prohibit the mother's or newborn's attending provider, after consulting with the mother, from discharging the mother or her newborn earlier than 48 hours (or 96 hours as applicable). In any case, this Plan does not, in accordance with Federal law, require that a provider obtain authorization from the plan or the insurance issuer for prescribing a length of stay not in excess of 48 hours (or 96 hours).

Women's Health and Cancer Rights Act of 1998 (WHCRA) Annual and Regular Notice

As required by the Women's Health and Cancer Rights Act (WHCRA) of 1998, notwithstanding anything herein to the contrary, the Plan provides coverage for: 1) all stages of reconstruction of the breast on which the mastectomy has been performed; 2) surgery and reconstruction of the other breast to produce a symmetrical appearance; and 3) prostheses and physical complications of mastectomy, including lymphedemas, in a manner determined in consultation with the attending physician and the patient. Such coverage may be subject to annual deductibles and coinsurance provisions as may be deemed appropriate and are consistent with those established for other benefits under the plan or coverage. Written notice of the availability of such coverage shall be delivered to the participant upon enrollment and annually thereafter. Contact the Plan Administrator listed in the Summary Plan Description or contact the Human Resources department staff for further information.

Premium Assistance Under Medicaid and the Children's Health Insurance Program (CHIP)

If you or your children are eligible for Medicaid or CHIP and you're eligible for health coverage from your employer, your state may have a premium assistance program that can help pay for coverage, using funds from their Medicaid or CHIP programs. If you or your children aren't eligible for Medicaid or CHIP, you won't be eligible for these premium assistance programs, but you may be able to buy individual insurance coverage through the Health Insurance Marketplace. For more information, visit www.healthcare.gov. If you or your dependents are already enrolled in Medicaid or CHIP and you live in a State listed below, contact your State Medicaid or CHIP office to find out if premium assistance is available.

If you or your dependents are NOT currently enrolled in Medicaid or CHIP, and you think you or any of your dependents might be eligible for either of these programs, contact your State Medicaid or CHIP office or dial 1-877-KIDS NOW or www.insurekidsnow.gov to find out how to apply. If you qualify, ask your state if it has a program that might help you pay the premiums for an employer-sponsored plan.

If you or your dependents are eligible for premium assistance under Medicaid or CHIP, as well as eligible under your employer plan, your employer must allow you to enroll in your employer plan if you aren't already enrolled. This is called a "special enrollment" opportunity, and you must request coverage within 60 days of being determined eligible for premium assistance. If you have questions about enrolling in your employer plan, contact the Department of Labor at www.askebsa.dol.gov or call 1-866-444-EBSA (3272). If you live in one of the following states, you may be eligible for assistance paying your employer health plan premiums. The following list of states is current as of July 31, 2025. Contact your State for more information on eligibility.
